ABOUT US

Welcome to **Cubithz Group Limited**, a diversified conglomerate with a robust portfolio spanning the Oil, Gas, Energy, Technology, and ICT sectors. With a commitment to excellence, innovation, and sustainability, we have established ourselves as leaders in these industries, driving growth and delivering exceptional value to our stakeholders.

Oil, Gas & Energy

Our Oil, Gas & Energy division is at the forefront of the energy sector, specializing in engineering, procurement, construction, exploration, production, distribution, as well as sustainable and renewable energy solutions. We leverage state-of-the-art technology and adhere to the highest safety, quality and environmental standards to ensure efficient and responsible energy production.

Our strategic partnerships and investments in infrastructure development enable us to deliver reliable energy solutions that power emerging economies and improve lives.

Technology & ICT

In the Technology sector, we are pioneers in developing advanced solutions that drive digital transformation. Our team of experts specializes in software development, artificial intelligence, and data analytics, delivering innovative products and services that enhance efficiency, productivity, and customer experience across various industries.

Our ICT (Information and Communications Technology) division is dedicated to providing state-of-the-art communication and IT infrastructure. We offer a wide range of services, including network solutions, cyber-security, and cloud computing, enabling businesses to stay connected, secure, and competitive in the digital age.

At **Cubithz Group Limited**, sustainability is at the core of our operations. We are committed to reducing our environmental impact and promoting sustainable practices across all our business units. Our initiatives include energy-efficient technologies, waste reduction programs, and community engagement efforts aimed at creating a positive and lasting impact on society.

STATEMENTS

Our Vision Mission & Values

Our Vision:

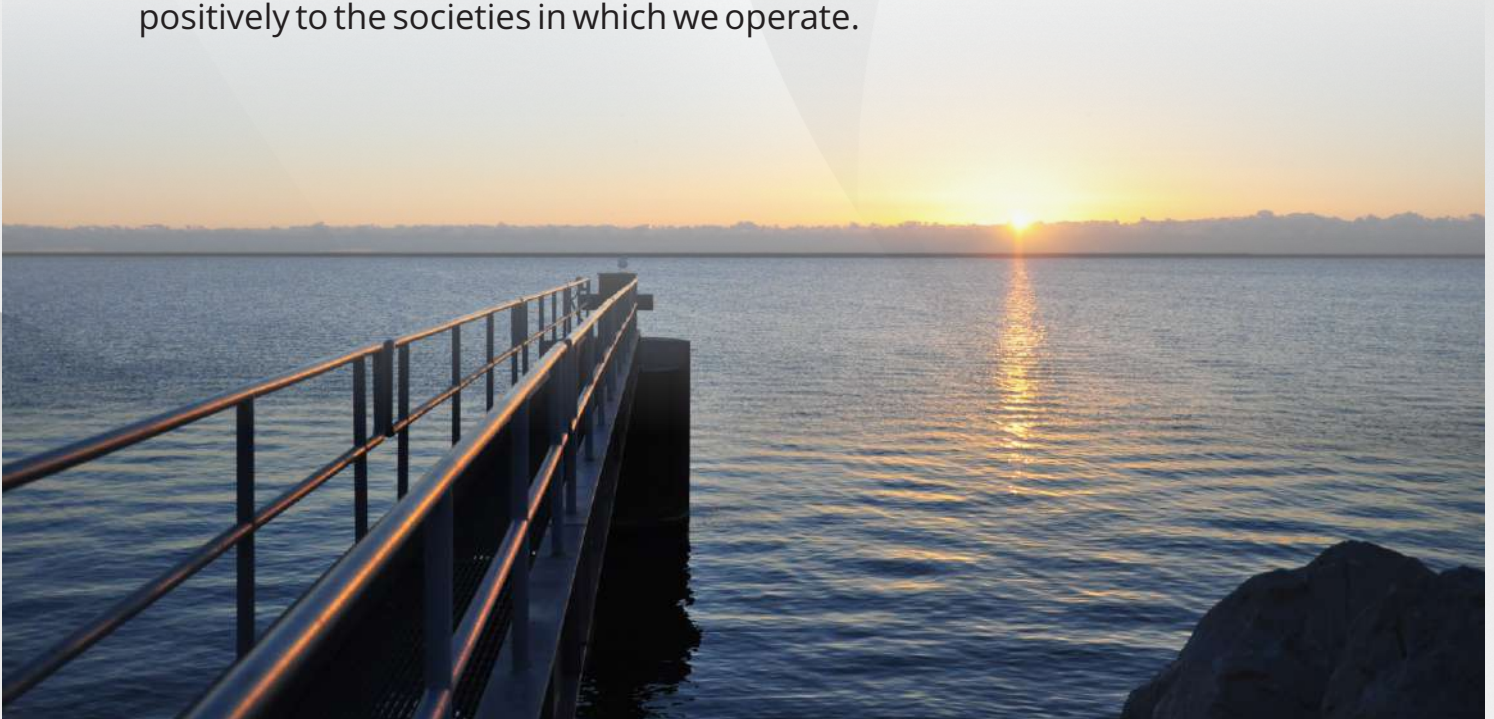

At Cubithz Group Limited, our vision is to be a global leader in our industries, recognized for our commitment to innovation, sustainability, and excellence. We strive to create value for our stakeholders, empower communities, and drive positive change through our diverse portfolio of businesses.

Our Mission:

Our mission is to deliver exceptional products and services that meet the highest standards of quality and integrity. We are dedicated to fostering a culture of continuous improvement, investing in our people, and leveraging our expertise to achieve sustainable growth and development.

Corporate Responsibility:

We believe in responsible business practices that prioritize the well-being of our employees, communities, and the environment. Our corporate responsibility initiatives focus on education, healthcare, environmental conservation, and community development, ensuring that we contribute positively to the societies in which we operate.

SUBSIDIARY COMPANIES

OVERVIEW

At **Cubithz Group Limited**, our subsidiaries are united by a common mission: to deliver excellence, foster innovation, and contribute to sustainable development.

Each subsidiary operates with a high degree of autonomy while adhering to the group's overarching values of integrity, sustainability, and customer satisfaction.

INTRODUCTION

Novium Development Company Limited is a leading expert in oil field development, EPC (Engineering, Procurement, and Construction), and metering. As a key subsidiary of Cubithz Group Limited, Novium leverages advanced technologies and industry best practices to deliver top-tier solutions in the oil and gas sector.

Key Services:

- Oil Field Development: Comprehensive services from exploration to production, ensuring efficient and sustainable oil extraction;
- EPC Services: End-to-end engineering, procurement, and construction services tailored to the specific needs of the oil and gas industry;
- Metering Solutions: Accurate and reliable metering systems for oil flow measurement and management.

Achievements:

- Successful completion of major oil field projects across multiple regions;
- Recognized for innovation and excellence in EPC services and metering solutions.

About Us

Novium Development Company Limited

Novium Development Company Limited is an integrated Oil and Gas company, registered in Nigeria. As a leading turnkey solution provider, Novium Development Company's hallmark is reflected in our expertise in engineering, efficient project management, outstanding safety performance and standardized quality assurance. These core attributes have ensured that affordable project execution and timely delivery according to contracted terms are synonymous with Novium Development Company Ltd.

We have over twenty professionals assigned to various projects engaged in supporting our clients' business objectives and consistently delivering on projected time frames.

We provide outstanding Turnkey Management to every project we handle through an array of services as it applies to Oil Field Development, Exploration, Production, Construction projects as well as Operations and Maintenance programs – from the planning and design phase through to the commissioning phases – for the purpose of achieving project objectives, including the management of quality, cost, time, and scope.

Our Vision

Novium Development Company Limited strives to be at the topmost echelon of consistent successful project delivery while applying international best practices combined with profound knowledge and efficient organizational systems.

Our Objective

Novium Development Company aims on delivering to commitments through managing quality assurance and maintaining a network of professional alliances to achieve project goals.

CORPORATE POLICIES

Safety

Our commitment to SAFETY in Novium Development Company Limited is entrenched in the consideration that the management of safety, health and welfare is fundamentally pivotal in our relentless drive for improving the quality of the services that we provide. Thus, it is intrinsically linked to the provision of a safe work environment and the operation of safe systems.

In striving to continually improve quality and safety, we recognise and accept our responsibilities for the safety and welfare of our employees. In this light, it is within the purview of our objectives to prevent workplace injuries, ensure accurate illness records, and empower our employees with requisite safety training and welfare packages.

We are committed to ensuring the implementation of a safety management system in the HSE that is consistent with legislative requirements, international standards and best practices.

Quality

The Novium management remains dedicated to providing their customers with choice products which conform in all respects to their

expectations and a service which meets the requirements of ISO 9001:2008. The company is committed to compliance with efficient service delivery requirements and appropriate legislation.

Given the progressive nature of Quality Assurance, the management undertakes to continually improve the effectiveness of the Quality System, which functions to keep the company at the forefront with regard to Quality matters.

Community

The ultimate aim of Novium Development Company is maintaining a cordial and harmonious relationship with host Communities where Novium projects are domiciled for execution. No execution will be worth it should there be a breakdown of this relationship and consequently, a shutdown of project execution. To this end, we have a blueprint for community engagement viz.: 100% of the non-skilled work-force and 50% semi- skilled workforce come from the Local/ host Community, subject to medical screening by a certified doctor from retainer clinic and certificate of fitness signed and dated by the doctor on an annual basis.

We are committed as a Nigerian Company in policy and function to manage Community affairs as an integral part of the Company's business with a view to maintaining a mutually enabling, functional and cordial relationship between Novium and her host Community.

INTRODUCTION

Cubithz Gas & Power Limited specializes in gas field development, gas metering, and gas infrastructure development. As a vital arm of Cubithz Group, the company focuses on harnessing natural gas resources to provide sustainable and efficient energy solutions.

Key Services:

- Gas Infrastructure Development: Comprehensive solutions for the development and maintenance of gas infrastructure, including industrial layouts, natural gas pipelines and storage facilities;
- Gas Metering: State-of-the-art metering systems to ensure precise gas flow measurement;
- Gas Field Development: Advanced techniques for the exploration and production of natural gas;

Achievements:

- Pioneering gas field projects that have significantly boosted production capacity;
- Industry recognition for excellence in gas metering and infrastructure development.

CUBITHZ

GAS AND POWER LIMITED

CompanyProfile

About Us

Cubithz Gas & Power Limited

Cubithz Gas & Power Limited's responsibility is to provide stable energy, resources, and materials. At Cubithz G&P, we are engaged in upstream business with oil and gas-producing countries across the world. In particular, we are involved in long-term gas production projects and as we continue to conduct safe and stable operations, we are working to proactively optimize gas development, natural gas merchandising, building of gas infrastructures and its operations.

Cubithz G&P Management Principles is focused on financial discipline, profitable and efficient growth from captured resources including balancing capital expenditures with cash flow from operations, reducing operational risk and complexity, promoting a culture of safety and integrity, and being a great business entity.

CORPORATE STRATEGY

We are disciplined and focused on rapid deployment of successful ideas and practices across our multi-basin portfolio—driving efficiencies, innovation, scale and sustainability. Supported by a strong balance sheet, Cubithz G&P's strategy is to deliver profitable growth.

BUSINESS STRATEGY

Our financial discipline tactics are buoyed on balance capital expenditure with cash flow from operations, operational flexibility increase through value-driven spending, lower business costs and achieving investment grade metrics.

OUR SERVICES

INTRODUCTION

Noptics Technology Limited is at the forefront of technology innovation, telecommunications, and ICT (Information and Communication Technology) services. As a crucial subsidiary of Cubithz Group, Noptics drives digital transformation and connectivity solutions.

Key Services:

- Technology Innovation: Development of cutting-edge technological solutions for various industries MSMEs, Health Sector, Day to Day activities;
- Telecommunications: Providing robust and reliable telecommunication support services;
- Comprehensive ICT solutions, including network infrastructure, cyber-security, and IT consulting.

Achievements:

- Leading the market in innovative technology solutions – Fintech & Digital Health Management Programmes;

“

Our success stories include helping global financial institutions enhance their Fintech platform, assisting a healthcare provider in implementing AI-driven patient monitoring systems, and enabling a manufacturing company to optimize their supply chain using IoT technologies.

“

About Us

Noptics Technologies Limited is a leading technology company that specializes in providing innovative solutions and services to businesses across various industries. With a customer-centric approach, cutting-edge technologies, and a team of highly skilled professionals, we strive to empower organizations to achieve their goals and stay ahead in the digital era. Our commitment to excellence and continuous innovation has made us a trusted partner for businesses worldwide.

Our Solutions has served a diverse range of clients across industries, including finance, healthcare, manufacturing, retail, and more. Our success stories include helping a global financial institution enhance their mobile banking platform, assisting a healthcare provider in implementing AI-driven patient monitoring systems, and enabling a manufacturing company to optimize their supply chain using IoT technologies.

Our mission is to provide our clients with reliable, scalable, and secure technology solutions that drive their growth and success. We strive to be a partner of choice, delivering exceptional value through our expertise, innovation, and customer-centric approach.

1. SATELLITE INTERNET SOLUTIONS

a. IP OVER SATELLITE

Apply secure, reliable broadband and Internet-related solutions for corporate and government customers to access applications such as e-mail, web browsing, file transfer, audio-video streaming, distance learning, etc.

b. MOBILE BACKHAUL

Receive access to high-capacity mobile traffic to get flexible and cost-efficient mobile backhaul services and to deliver them to the areas previously considered unreachable.

2. CONSULTANCY AND TECH SOLUTIONS PROVIDER

Our professional and experienced team is always here to assist you regarding any enquiries on consultancy or technical support.

3. PRODUCT DEVELOPMENT:

We offer custom IT Product development services tailored to the unique needs of businesses. Our experienced development team specializes in building, managing and operating payment, and billing platforms, enterprise software, and e-commerce solutions. Noptics developed product (**Qlicpay**) is a unique payment platform that processes different kinds of transactions from utility billing to financial transaction.

4. CLOUD COMPUTING:

We assist organizations in leveraging the power of cloud computing to enhance scalability, flexibility, and cost efficiency. Our experts provide cloud migration, architecture design, and management services across major cloud platforms.

5. ARTIFICIAL INTELLIGENCE:

We harness the potential of AI to transform businesses and optimize processes. Our AI solutions include natural language processing, machine learning, computer vision, and predictive analytics, enabling automation, intelligent decision-making, and enhanced customer experiences.

6. INTERNET OF THINGS (IOT):

We enable businesses to connect and control their devices, sensors, and machines through IoT solutions. Our IoT services encompass device integration, data management, analytics, and developing IoT applications for various industries.

7. DATA ANALYTICS:

We help organizations unlock actionable insights from their data through advanced analytics techniques. Our data scientists and analysts leverage big data technologies to drive informed decision-making, optimize operations, and uncover new business opportunities.

8. CYBERSECURITY:

We provide robust cybersecurity solutions to protect businesses from evolving threats. Our services include vulnerability assessments, penetration testing, security audits, incident response, and implementing proactive measures to safeguard critical systems and data.

TEAM AND EXPERTISE:

Our team comprises highly skilled professionals who are experts in their respective domains. We have a talented pool of software engineers, data scientists, cloud architects, AI specialists, cybersecurity experts, and consultants. With their vast experience and continuous learning, they deliver cutting-edge solutions that meet the evolving needs of our clients.

PARTNERSHIPS AND ALLIANCES:

Noptics Technologies Limited has established strategic partnerships with leading technology companies, including major cloud service providers, software vendors, and hardware manufacturers. These partnerships enable us to access the latest technologies, stay at the forefront of innovation, and deliver comprehensive solutions to our clients.

With our strong commitment to customer success, technological expertise, and a passion for innovation, Noptics Technologies Limited is the ideal technology partner for businesses seeking to transform and thrive in the digital landscape. We offer end-to-end solutions that streamline operations, enhance productivity, and drive sustainable growth.

**BLUE STEEL
HOMES LIMITED**

RC: 7359962

CORPORATE INTRODUCTION

Welcome to **Blue Steel Homes Limited**, a Nigerian premier real estate company specializing in providing comprehensive services for property assessment, property sales, property acquisition, smart development and installation, building construction, building structure upgrade, rehabilitation, and renovation.

Since our establishment we have prioritized simple, indigenous and fit for purpose venture in the Nigerian real estate industry, providing comprehensive services to intending property buyers, sellers, investors, and developers.

At Blue Steel Homes Limited we understand that the real estate landscape is constantly evolving, and we are here to help you navigate these changes. Our team consists of experienced professionals dedicated to offering personalized solutions that meet your specific needs. Whether you're looking to assess the value of a property, purchase or sell a property, or undertake a major construction or renovation project, we are equipped to assist you at every stage.

OBJECTIVES

Client Satisfaction: Provide exceptional customer service and support to ensure clients are satisfied with the real estate services provided;

Brand Recognition: Build a strong brand that is recognized for its professionalism, integrity, and reliability in the real estate industry;

Innovation and Technology: Stay ahead of industry trends by adopting innovative technology and tools that enhance client experience and operational efficiency.

MISSION & VISION STATEMENTS

Our mission is to be the trusted partner for all real estate needs, delivering unparalleled service and results. We are dedicated to understanding our clients' goals and providing tailored solutions. Through our commitment to excellence and our deep knowledge of the market, we aim to exceed expectations and foster long-term relationships."

Our vision is to be the leading real estate partner for our clients' life journeys, helping them find simple, affordable, comfortable, and luxury homes; build wealth, and create serene communities; as we are dedicated to building a sustainable future, embracing innovation with technology, and fostering a culture of trust and collaboration.

OUR SERVICES

Property Assessment:

Our certified appraisers will provide accurate and detailed assessments to help you understand the true value of your property;

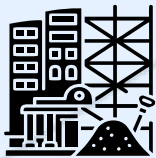

Smart Development and Installation:

We specialize in integrating smart technology into buildings, enhancing efficiency, security, and energy management;

Property Sales and Acquisition:

We can help you sell your property at the best market price or assist you in acquiring new properties that align with your investment goals;

Building Construction: From small-scale residential projects to large-scale commercial buildings, our construction team delivers quality results on time and within budget;

Building Structure Upgrade, Rehabilitation, and Renovation:

Whether it's enhancing structural integrity, updating design, or restoring historical buildings, our experts can handle any project with precision and care.
